

## **Why did you choose Persona Homes, Perth Custom Home Builder?**

I was looking for a reputable company, someone I could trust and that would complete the project – rather than disappearing half way through it. I've had other business dealings with Persona Homes, Perth Custom Home Builder, and from these I knew they were trustworthy.

I found the costs provided by Persona Homes, Perth Custom Home Builder to be very reasonable, especially for a custom design. Typically, other builders have many standard designs, but when you deviate from these, prices increase significantly. Not so with Persona Homes, Perth Custom Home Builder.

Also, when I was considering Persona Homes, CY the Managing Director showed me several jobs that were in progress, and in these the quality of workmanship was impressive.

## **Working with Persona Homes, Perth Custom Home Builder**

From my experience, Persona Homes, Perth Custom Home Builder are:

**Flexible:** You often don't get this with other builder, who might give you a few hours or half a day to make some of your choices. As a result, these can feel like impulse decisions which you don't get time to think through. With Persona Homes, Perth Custom Home Builder – especially for non-structural work, I was given time to consider things such as colour schemes, light fittings and so on, This was a relief and I think it led to better decisions.

**Friendly:** CY has a friendly manner. I never had the sense that he was trying to apply pressure or conceal anything from me.

**Prompt:** Any issues that arose were attended to very quickly.

**Quality of work:** I inspected the house regularly and met many of the tradesmen, and they're work was fantastic. The tiles, the bathroom, the electrician's work – it was perfect.

**Close to lock-up:**

Lock-up should be in about 1.5 months. As this was a custom home, we'd never seen a finished product. It's looking slightly better than we'd expected – in fact, we think it's the nicest home on the whole street!

In general, I've watched Persona Homes, Perth Custom Home Builder grow and work hard, and I would strongly recommend them to anyone looking to build a custom home.
